**American Specialties, Inc.****Model #04833****Technical Data Sheet****OPERATION & MAINTENANCE**

Push self-closing disposal door to deposit waste material. Toilet paper rolls feed freely until depleted and level of supply is constantly visible for low-level warning. Waste receptacle is emptied manually on cycle determined by maintenance needs. Toilet paper rolls and waste receptacle are serviced by unlocking and opening door. Locked door prevents inadvertent dumping and unauthorized removal. Waste container safety-edged finger hole provides convenient grip for service. Toilet paper spindles are carried in vandal resistant sub-frame accessible when door is opened.

INSTALLATION

Wall bracket is surface mounted using #10 self-threading pan head screws (provided by others to suit wall conditions) in a manner capable of supporting 300 lbs (136.1 kg) of downward force. Ensure that mounting configuration complies with local building codes. Secure hook to bracket by tightening three (3) hex socket set screws on perimeter of flange with a 1/8" hex wrench. For compliance with ADA Accessibility Guidelines install the hook center-line 54" [1372] maximum Above Finished Floor (AFF) when clear floor side reach access is provided or 48" [1219] maximum AFF with clear floor forward reach access only provided.

Slide a stainless steel collar over the rear of cabinet and then surface mount cabinet to partition or wall using #10 self-threading screws (by others) through concealed mounting holes provided.
