PRODUCT OVERVIEW

This sophisticated automatic paper towel dispenser and waste receptacle is designed to be completely recessed into the plane of the washroom wall, highlighting the seamless design that defines Piatto™. The phenolic door is attached to the cabinet using field-adjustable, furniture quality hinges and is secured shut by an internal spring-loaded latch. All hardware is concealed giving the Piatto™ Collection its minimalist appeal. Proximity sensing no-touch unit holds and dispenses one 8" diameter [Ø203] x 8" wide [203] standard towel roll up to 800 ft. (244m) long and one 8" wide [203] stub roll up to 4" diameter [Ø102] and automatically changes over to main roll when finished with stub roll when feed tabs are properly engaged. Dispenser is powered by (4) D-size batteries (not supplied) and operates automatically to activate towel dispensing when hands are placed in sensor zone. At each activation unit feeds out a length of towel selected by owner by setting length, delay and paper saver switches. Waste receptacle has a capacity of 9.9 gallons (37.3 L) and is emptied manually. Door is White Formica 949.

OPERATION & MAINTENANCE

Towels are dispensed one length at a time automatically when hands are placed in sensor zone until supply is depleted. Length of towel dispensed is predetermined by owner by making selections on three (3) three-position switches for length, delay, economy. Unit may be reloaded with a full roll to automatically start when finished with an existing partial roll and will continue to feed properly when reloaded with a full roll and partial roll is transferred to stub roll position. Refill dispenser by opening the door and replacing towel roll for an empty or partially empty unit. Dispenser supply is replenished and batteries are replaced manually on cycles determined by maintenance needs. LED indicates sensing and battery condition.
