

Assembly Instructions for Driptray with Wall Protection:

1. Mount the Airblade to Dyson instructions.
Do not tighten the two lower screws.
2. Slide the wall protection plate from below ear and centre it. Secure Airblade.
3. Thus the wall protection plate serves as a drilling template for the driptray bracket.
4. Drill 2-holes $\text{Ø}8 \times 55$ deep.
5. Fix the bracket with the two countersunk screws and push in the driptray.
