OPERATING PRESSURES:

Supply water 20 – 105 psi maximum

MOUNTING INSTRUCTIONS and PLUMBING CONNECTIONS

Provide solid, well-drained surface to mount hydrant (concrete pad recommended.) (6) 3/8" minimum fasteners (not included) should be attached securely to mounting surface in order to secure fountain. (Refer to rough-in diagram.)

Locate and install plumbing through ground as required.

NOTE: Hydrant is not furnished with service valve.

Position hydrant over plumbing and secure base to fasteners. Remove access panel and connect supply and water lines. Turn on water supply and check for leaks. Reassemble access panel to pedestal. Refer to owners' manual for detailed instructions.

Hydrant is rated for inlet water pressure of 20-105 psi. A pressure reducing regulator should be used if the inlet water supply exceeds 105 psi.

NOTE: Not designed for sub-freezing applications.
